

Technical Specifications

	Total length footrest up	75 cm
	Total length footrest down	97 cm
	Width standard configuration	65 cm
	Width narrow armrest	63 cm
	Seat height	50 cm at the front, sloping 5° to the back
	Backrest height	103 cm
	Turning radius	73.5 cm
	Frame with articulated front lifting bar	Rigid steel, epoxy paint
	Seat width	Adjustable from 45 to 57 cm
	Seat depth front to back	Adjustable from 36 to 54 cm
	Electrically reclining back +/- 40°	Fire-retardant washable tension fabric (M3)

	Stand-up Electric actuators	LA31-3000-100 LA31-6000-150
	Footrest adjustable to the rear	Height adjustment 60 mm
	Front wheels	Ø 200 x 50 mm with maintenance- free tyres
	Rear wheels	Ø 360 x 80 mm inflatable
	Motors Electric propulsion	2 motors 300 W
	Speed	6 or 10 km/h depending on version
	Battery life	> 25 km
	Batteries	2 batteries AGM of 55 A 12 V
	Charger	1 charger 8 A 24 V
	Weight of wheelchair Without batteries With batteries	88 kg 118 kg
	Maximum weight of user	120 kg

CE The compliance of the apparatus
with annex I of EU directive 93/42/CEE
is certified by the CE label.

P-ACCESS

Power Stand

P-Access: simple and efficient!

Wheelchair produced using reliable technical solutions.
Powerful standard motors (2 x 300 watts),
and acclaimed electronics.

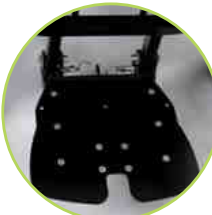

Ergonomic knee support
3-way adjustable.

LED Road kit.

Convenient lifting bar
which, at the front, absorbs
50 % of ground irregularities
and, at the rear, is
supplemented by
a suspension system
with adjustable shock
absorbers providing
exceptional comfort.

Foot plates:
one-piece, adjustable,
ingenious locking system.

**Standard adjustment
of backrest angle**
which provides continuous
compensation both sitting
and standing up.

**Ergonomics of
the armrests**
which adopt the shape
of the forearms.

**Retractable
clothes guard.**

**Adjustable
seat depth.**

Very compact, it turns on its own axis,
requiring a minimum amount of space.
Its ride quality, both indoors
and outdoors, makes it a pleasure
to use on a daily basis.
