

LG 2004

Stair lift with tracks

Technological innovation, the approach to the care of the end user and the attention to special aesthetic details have, over the years, seen the success of the stairlift LG2004. Today the new version has all the features developed in eight years of continuous design and product development.

Unparalleled ease of use thanks to the patented operating system that allows it to turn on itself, even in confined spaces, with no effort. Reliability due to a weight management and engineering that allows significant energy savings and longer battery life.

All innovations in one product to make everyday life easier for non-ambulatory people.

A new range of accessory allows to be compatible with each kind of wheelchair

To reduce the size of the stair climber were introduced new folding hooks and new double adjustable and padded headrests to provide maximum patient comfort

Upper and lower folding wheelchairs space saving hooking

Lower folding wheelchairs space saving hooking.

Ease of use unmatched by raising electric 4 wheel maneuvering patented that allows you to turn on itself and on the stair small spaces without effort.

Release System in case of Emergency: manual handling of the 4-wheel lifting system and caterpillar tracks in case of emergency.

Technical details

Total weight:	Kg 58
Weight of the base equipment:	Kg 46
Weight of the handle bar with controls:	Kg 12
Weight of the battery charger:	Kg 0.7
Max dimension	144x67x99 Cm
Motor power	300 W
Battery charger power absorbed:	80 W
Battery charger power supply:	220 V
Maximum trasportable weight:	Kg 130 - (optional 150 Kg, 180 Kg)
Operating range:	540 gradini (con passeggero di 85 Kg)
Operating range with reserve battery indicator on:	180 gradini
Minimum stairs dimension:	77 Cm
Minimum dimension of "L shaped landing:	98x98 Cm
Minimum dimensions of "U" shaped landing:	98x170 Cm
Maximum angle	70% 35°
Storage and use temperature:	20° + 50°
Maximum speed:	15 Gradini per minuto
Packaging dimension	116x60x43h Cm
P.cs for pallet size	120x100 cm 8 Pezzi
Pallets total weighth	KG 480
